GLASS IN FLIGHT 2, FEBRUARY 3 – MAY 5, 2024

Experience an amazing outdoor sculpture exhibit of larger-than-life flying insects/birds hand-crafted into 28 works of art with Dalle de Verre glass and steel. Created by nationally known sculptor, Alex Heveri, each piece captures the essence of flight. Sunlight through the colored glass mimics the transparency and iridescence of insect wings, intensifying the illusion of movement and life. The exhibit weaves together the beauty of art with the science of nature. Kids will enjoy finding special butterflies throughout the Gardens. Included with general admission.
